

Hidden Talents Program

  
**AUDACITY**  
CAPITAL

As seen on

*“Our aim is to attract and retain the best traders in the industry, helping our traders to realise their full potential and achieve financial success and satisfaction”.*

*AndaCity Capital*  
CEO

AudaCity Capital has a world-renowned reputation for funding and backing profitable traders, we have always considered ourselves to be at the cutting edge of our industry.

We trade on all major asset classes on multiple exchanges with our own capital, and do not handle any client's funds or have any customers.

By becoming a member of our team, you will become part of our success.

We are market leaders because we have always had an internal vision to promote a strong entrepreneurial working culture!

With a deep understanding of the market, we believe that the only way to be a winner in our industry is to invest heavily in talented people who want to grow together with us.

We are seeking like-minded professionals to develop their skills and enable them to join our team.

## MAKING TRADERS PROFITABLE

As a principal trading firm, we trade for our own account only.

We do not have clients, nor do we provide any investment services or ancillary services to others.

Our strategies are designed to use information that is publicly available and we use fairly simple, non-controversial and transparent order types.

We are a strong supporter of fair, transparent and orderly markets.

## Hidden Talents Program

The Hidden Talents Program is an initiative created to help fill in the shortage of capable traders in the city.

Uniquely, the program is not based upon previous experience or academic qualifications, but purely on the natural intellect and psychology of a profitable trader.

With a careful selection process, the Hidden Talents Program is designed to help identify, recruit and develop the next generation of raw talent, who are eager to demonstrate their capability in investing and trading the financial markets.

The Program contents includes traditional subjects like technical, fundamental and intermarket analysis, trading psychology and risk management.

As the program inherently includes a training period at first - but, if you are looking for an instant job immediately, this particular program might not be suitable for you.

Becoming a financial trader and trading the financial markets is unlike a traditional wage based model of employment, but instead, it's a competition and performance based endeavour.

The Program includes a small training fee, which will cover your study material and our one-to-one teaching sessions with our esteemed Floor Trader.

## The Program Study & Length

We offer a part-time and full-time Hidden Talents Programs both of which include two distinct phases:

### - During Month One

During the first month we will teach you the art of technical and fundamental analysis, and you will be given a dedicated live trading account funded with a small deposit. You will be live trading from week one onwards.

### - Month Two Onwards

From month two onwards you will be trading a live account which will be funded with the company's funds in the amount of \$15,000. Profits will be fairly split 50/50 and we are going to double the account size every time you reach a 10% target.

### Dedicated to Every Talented Individual

We also understand that some trainees can only devote themselves to our Hidden Talents Program on a part-time basis, while others are available on a full-time basis.

Our commitment to varying levels of availability only further stresses our aim to include every talented individual in our program.

Even if you cannot make it to our physical location, you will always have the ability to trade remotely.

*By creating opportunities from knowledge, we create and pursue opportunities with determination. We ENJOY what we do – and we only do what we ENJOY, with our specialised expertise coupled with years of experience we inspire people to consider new perspectives.*

## PROGRAM STRUCTURE

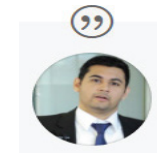

- Overview of the financial markets
- FX market size and liquidity
- Speculation in the FX market
- Buying and selling currency pairs
- The FX market structure
- The FX market participants
- The FX broker types
- The mechanics of trading FX

### Week One

A comprehensive introduction to the financial markets, and gaining the understanding of the financial markets structure, the market dynamics and mechanics thereof.

### Week Two

Introduction to technical analysis, money management and trading psychology. Learning to manage risk by following our set up trading plan and trading methodology step by step. Every trainee will be coached, monitored and trained of how to utilise our trading tools in order to be able to manage positions and find the best entries/exits in, and out of positions.

*“Throughout the day I monitor key economic announcements based on the economic calendar, trading news based on volatility and momentum within the market. Audacity Capital has given me the tools and support to start my career as a day trader”.*

**Adheesh S.**

At this early stage you'll already have, the ability and knowledge, of how to best judge and time your trade entries and exits, by following and adhering rigorously to our trading plan.

### **Week Three**

You will be taught, on a one-to-one basis by our esteemed Head Of Trading, the vast subject of applying technical Fibonacci studies and the art of price action trading. These are highly complex and deep subjects, and therefore, require intensive study and effort in order to maximise the benefit of these invaluable trading tools!

### **Week Four**

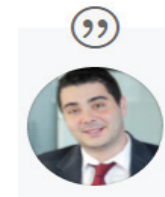

Putting all that you've learned, and the knowledge that you've gathered and acquired into practice. At all times our Head Of Trading will keep a vigilant eye on you. He will keep motivating you and analyse your live trades in order for you to get better and better with each trade!

### **Week Five**

AudaCity Capital funds your trading account in the amount of \$15,000, with a 50/50 profitsplit. We will also continue to be monitoring and coaching you over the next 2-3 months, in which time if you have been consistent, we are going to double your trading account up to the amount of \$250,000.

**Profitability Is Contagious!**

Learn how to trade successfully surrounded by full-time profitable traders.

*"I think HTP was a golden opportunity for me to start a career in Finance, being on a trading floor around experienced profitable traders, learning from them on daily basis saved me a lot of time and money".*

**Mihai H.**

*Successful traders who made the dream of many, their everyday reality!  
You can be that success story too. You can win, achieve and inspire.  
You can have the life that you want, the life that you deserve.  
Let today be the start of your better tomorrow.  
Let us show you the shortcut to profitability and above average earnings.  
Let us take you there.*
